JOINING FORCES TO REDUCE FORCES

THE ULTIMATE DAMAGE CONTROL SYSTEM.

Koroyd adds structural reinforcement to the protective elastomer and then redirects force from an impact, absorbing energy from multiple hits without compromising on usability.

HIGH PROTECTION
MINIMAL FATIGUE
MAXIMUM DEXTERITY

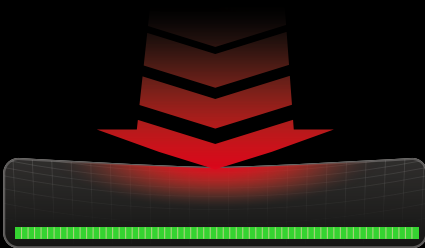

Encapsulated Koroyd
reinforcement layer

Protective elastomer
optimised for performance

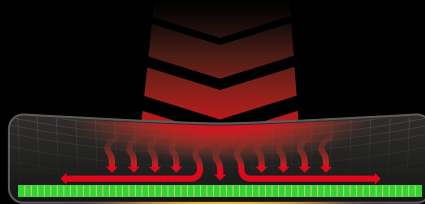

Ultra thin
level 3 protection

HOW IT WORKS

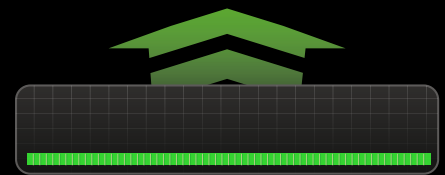

ABSORB

Reinforced by Koroyd, at impact the protective elastomer can absorb more energy.

REDIRECT

The Koroyd core spreads the energy outwards, dissipating the force.

REPEAT

The energy absorber instantly returns to form for repeat protection in any environment
